

# ITS United Kingdom Information Pack

## ITS United Kingdom will:

- be the point of reference for the ITS and Intelligent Mobility communities
- champion the benefits of transport technology in developing and implementing transport research, policy and strategies
- provide excellent services with a not for profit business model
- support learning and professional development through our activities
- be trusted for our knowledge, integrity, impartiality and leadership
- drive knowledge exchange with other international ITS organisations
- deliver value and quality to all who interact with us

## Mission and Aims

The Intelligent Transport Society for the United Kingdom (ITS (UK)) is a not-for-profit public/private sector association financed by members' subscriptions. It promotes the benefits of Intelligent Transport Solutions (ITS) and supports the interests of member organisations by:

- providing readily accessible opportunities for practitioners and stakeholders to meet on an equal footing to promote mutual understanding and to increase knowledge and awareness of ITS best practice;
- leading informed and balanced debate on ITS and influencing relevant policies by acting as the recognised reference point for information on ITS;
- engaging with, supporting and influencing policy and strategy at national, European and international levels; and
- promoting the international excellence of UK technology, expertise and solutions.

## Strategy

The mission and aims are achieved by:

1. drawing together active players and interested parties, by means of targeted Interest Groups, Task Forces and other fora, to lead the debate about and knowledge of ITS deployment;
2. engaging with Government (Directorates, Agencies and Departments) nationally, regionally and locally and with Parliamentary bodies and members (including the Transport Select Committee) to influence policy and strategy for the UK
3. engaging with the European Commission, ERTICO, ITS America, ITS Asia Pacific and the large number of national ITS associations to influence ITS policy overseas;
4. educating and informing, in an accessible way, practitioners and stakeholders both within and beyond the current ITS community;
5. providing other membership benefits and services sufficient to attract and retain high membership uptake across all categories of ITS practitioners and stakeholders;
6. adopting and maintaining high national profile and influence and an international reputation through:
  - a high-profile President able and committed to promoting the mission;
  - a Chairman and Vice Chairman, committed to the ITS (UK) Mission and holding senior positions in the ITS sector;
  - an Ambassador dedicated to raising the profile of ITS (UK)
  - the use of relevant people and media (including the press) to raise awareness, knowledge and debate about ITS issues of both strategic and topical relevance; and
  - promoting participation in targeted international activities;
7. developing, maintaining and promoting leading edge ITS seminars and documentation, demonstrating best practice, forethought and relevant case studies and indicating the economic, social and environmental contribution of ITS to transport policy; and
8. identifying, brokering and commissioning research unlikely otherwise to be commissioned on issues relevant to ITS deployment.

March 2012

## Who's who in ITS (UK)

|                                 |                        |   |
|---------------------------------|------------------------|---|
| <b>President:</b>               | Steven Norris          |   |
| <b>Chairman:</b>                | Dr Alan Stevens        | TRL   |
| <b>Vice Chairman:</b>           | Ian Patey              | Mouchel                                     |
| <b>Immediate Past Chairman:</b> | Sharon Kindleysides    | Kapsch TrafficCom                           |
| <b>Ambassador:</b>              | Professor Eric Sampson | Visiting Professor, University of Newcastle |

## Get the most out of your organisation's membership of ITS United Kingdom - pay once, benefit many times ....

### Encourage engagement throughout your organisation

- Encourage colleagues to register for the weekly ITS news update email
- Encourage colleagues to register for the topic-based Interest Groups which are relevant to them

### Participate

- Register for relevant Interest Groups and pick the activities that suit you:
  - Attend conferences, meetings and technical visits . around 50 each year to choose from!
  - Receive news up-dates
  - Disseminate your own news and ask others for information or contacts via the email list
  - Even if you cannot attend the meeting or conference, the presentations and agenda can be viewed by Members on our website
  - Use the Interest Group activities as a tool to train and mentor younger colleagues
- Join the annual ITS (UK) delegation to the ITS World Congress
  - Help to promote UK plc
  - Promote your own work or products
  - Make international contacts
  - Build closer links with other UK delegates
- Attend the AGM
  - Get your voice heard . what would you like ITS (UK) to deliver for you?

### Communicate

- Use the weekly email update for short announcements and requests for information and contacts
- Get longer articles published in the ITS (UK) insert in TEC Magazine, or in our three Review publications
- Speak at our meetings and conferences
- Guest blog or get retweeted

### Learn

- Many world leading ITS experts are active members of ITS (UK)
- Members use ITS (UK) events and publications to publicise their latest research and implementations
- ITS (UK)'s international contact network means that we can put Members in touch with foreign experts

### Influence

- The Department for Transport, the Highways Agency, the Department for Business Innovation and Skills, Traffic Wales, Transport Scotland and Roads Service in Northern Ireland are all Foundation Members of ITS (UK) and value the opportunity to consult formally and informally with fellow Members.
- ITS (UK) makes formal responses to Government consultations and is regularly invited to give evidence to the Transport Committee.

### ITS (UK) covers all aspects of Intelligent Transport Systems, including applications for:-

|                                   |  |
|-----------------------------------|--|
| Traffic management                | Road safety  |
| UTMC                              | Security   |
| Passenger information             | Emissions reduction                                  |
| Ticketing                         | Road User Charging                                   |
| Logistics                         | Automotive / Telematics                              |
| Fleet management                  | Communication technologies                           |
| Driver information                | Mobility and accessibility                           |
| Navigation and location systems   | Human factors  |
| Connected and autonomous vehicles | Big Data for transport                               |
| Parking                           | Smart City concepts                                  |
| Enforcement                       | ○ and all aspects of using ICT for surface transport |

## MEMBERSHIP GRADES

### Associate Membership

This is open only to not-for-profit, non-Government, membership associations in the UK, and to any organisation without a UK base. It entitles all employees of the member organisation to participate in ITS United Kingdom events and activities. Information can be sent to any reasonable number of staff at any reasonable number of locations.

**Cost:** £450.00 per year + VAT

### Corporate Membership

This entitles all employees of the member company or organisation to participate in ITS United Kingdom events and activities. Information can be sent to any reasonable number of staff at any reasonable number of locations.

**Cost:** £1,500.00 per year + VAT (Local Authorities and national Government Transport Departments £1,350.00 per year + VAT)

### Small Enterprise Membership

This entitles all employees of the member company or organisation to participate in ITS United Kingdom events and activities. Information can be sent to any reasonable number of staff at any reasonable number of locations. Small Enterprise membership is restricted to organisations employing directly less than five full time staff or equivalent, and with a turnover as reported to Companies House of less than £400,000 per annum.

**Cost:** £880.00 per year + VAT

### Start-Up Membership

This entitles all employees of the member entity to participate in ITS United Kingdom events and activities. Information can be sent to any reasonable number of staff at any reasonable number of locations. Start-Up membership is restricted to companies or sole traders employing directly less than five full time staff or equivalent, and with a turnover of less than £400,000 per annum. It is also restricted to entities registered with Companies House or HMRC less than two years prior to applying to join ITS (UK). Start-up membership can be held for a maximum of two years.

**Cost:** £450.00 per year + VAT

### Foundation Membership

This entitles all employees of the member company or organisation to participate in ITS United Kingdom events and activities.

The Foundation members form the Council of ITS United Kingdom, which determines the strategy and activities of the Society. The Chair and Vice Chair of ITS United Kingdom are elected by Council from its own ranks.

Foundation Members enjoy additional discounts at events and are given priority where places are restricted, such as trade missions and other Government events.

Information can be sent to any reasonable number of staff at any number of locations.

**Cost:** £2,850.00 per year + VAT (Local Authorities and national Government Transport Departments £2,700.00 per year + VAT)

*Effective from 1 January 2015*

**Apply for membership of ITS (UK)**  
**at <http://www.its-uk.org.uk/about/membershipform.aspx>**  
**or email [mailbox@its-uk.org.uk](mailto:mailbox@its-uk.org.uk)**
